

North District

Ohio State's North District Event Spaces are within the **9** newer residential buildings on the Columbus campus. This area offers a variety of space options including housing, meeting spaces, dining and outdoor locations that are ideal for a conference or overnight experience. Residences are located on upper floors, while ground floors are dedicated to common and event spaces. The innovative design of the district includes **23** different event spaces and **6,728** residence beds.

Curl Viewpoint

A highlight of the District is Curl Viewpoint, located on the second floor of Curl Market. This space features built-in technology with floor to ceiling windows and provides an open floor plan for **270** guests in theatre style seating or **240** guests at round tables. The space overlooks a grassy common area that connects to the other smaller spaces in the District that could serve as breakout spaces for your next conference or event.
